

STEEL CENTER

for CAREER & TECHNICAL EDUCATION

Application and Admissions Information

The Steel Center Student Services Department strives to place students in programs that align with their designated career interests. We work diligently to place as many students as possible in their first choice.

- ✓ The regular decision deadline for a Steel Center application was March 31, 2025. Students who submit their application by March 31 received notice of their acceptance/placement on May 1, 2025.
- ✓ Steel Center continues to accept applications from April 1 through September 30; however, these applications are considered after all “on-time” applications and students may have a more difficult time gaining access to their first choice.
- ✓ Students can list up to 3 program choices in preferential order. Please only list programs that you will accept a spot in as a 2nd or 3rd choice.
- ✓ Upon receipt of program placement, students can choose to accept or deny the program offering.
- ✓ The program placement process continues beyond the May 1 communication. Students who are placed on a waitlist can be placed in programs throughout the summer and into the beginning of next school year.
- ✓ For various reasons, most of the movement and placement from our waitlists occurs at the beginning of the school year.
- ✓ Steel Center will contact the student and their family as well as the sending school counselor when a seat becomes available. This applies to both students who are waitlisted in all program choices and those who have accepted a spot in a second or third choice and can move to a second or first choice.
- ✓ Over the summer, accepted students will receive a welcome letter from Steel Center with program specific information and important dates as well as an invitation to New Student Orientation which is held the Thursday prior to the start of the school year.
- ✓ For more information about our programs, please visit www.steelcentertech.com and click on the Career Majors tab.
