

# Remote Learning Day

## Instructions for Students

### 2021-2022 School Year

#### Remote Learning

Steel Center has the option and is approved to deliver instruction for our students remotely during the 2021-2022 school year. This option may be used to ensure the health and safety of our students and staff due to Covid-19 or when needed for other similar circumstances. On days that we need to use this option, we will notify our students and families that we are on a Remote Learning Day with our automated calling system. We will post an announcement on our website & social media pages as well and if needed through KDKA, WTAE, and WPXI.

#### Student Expectations

A **Remote Learning Day** is NOT a day off for Steel Center students. When Steel Center announces a **Remote Learning Day**, students will:

- Log onto CANVAS during the scheduled sessions (between 7:25 AM and 10:10 AM for the morning session and between 11:45 AM and 2:30 PM for the afternoon session).
- Participate in all instructional activities provided by their teacher and complete all assigned work.
- Email their teacher if they have any difficulty logging onto CANVAS or for any other questions or concerns related to that day's lesson.
- Seek support as needed from other Steel Center resources such as School Counselor Mr. Hinkle, Learning Facilitators Mrs. Eberhart and Mrs. Herron, Work-Based Learning Coordinator Mrs. Warabow, and Chill Project staff Mrs. Knapp or Mr. Linville.
- Follow all appropriate policies related to behavior, class participation, and use of technology.
- Turn in all make up work or other assignments to their teacher per Steel Center policy if unable to attend class remotely.

\*Attendance will be taken by your teacher. If students are absent from a Remote Learning Day, they will need to submit an excuse the same way as when they miss a regular instructional day.

\*To access teacher email addresses or CANVAS student login on non Steel Center devices, go to our website [www.steelcentertech.com](http://www.steelcentertech.com)
