Day 133 Of 181

TODAY'S DAILY CTE FUN FACT: From our Collision Repair Instructor, Mr. Canavan: The auto body repair bill should describe the all the work that was done. It should list every repair, which parts were used, labor charges, and the odometer reading of the car before bringing it in. If there is a discrepancy between the itemized bill and the written estimate, don't hesitate to ask the auto body repair shop about the differences.
