

Help us build a safer tomorrow.

Do you enjoy assembling small electronics?
Do you like figuring out how things work?
Do you want to make a difference in people's lives?

At SKC, we assemble and test electronic our air and noise monitoring devices which are used worldwide to help ensure that people have a safe and healthy workplace.

Our family-own manufacturing facility located on our campus in Eighty-Four, PA is growing. We want you to join our team and help us build a better future together.

- Maintain a work-life balance with our steady Monday - Friday, 7:00AM – 3:30 PM schedule
- Develop your talents and learn a variety of new skills
- Work alongside dedicated technicians in our friendly and relaxed team environment
- Take pride in the fact you are making a difference in the lives of others every day

SCIENCE.
SERVING PEOPLE.
