July 1, 2020

Dear Steel Center Family:

Please allow me to introduce myself. My name is Stacey Caudill and I am the Baking and Pastry Chef teacher. I am certified as an executive pastry chef through the American Culinary Federation and have over 20 years of industry experience working for some of the top rated city clubs, country clubs, casinos and culinary schools in the nation.

My goal for students enrolled in the Steel Center Baking and Pastry Chef Program is to expose them to the same work environment found in most kitchen or baking facilities. Students will learn how to convert recipes, scale ingredients, execute various mixing methods, operate commercial baking equipment, implement proper sanitation procedures as well as package and merchandise their finished products. They will produce baked goods such as pies, cakes, cookies, breads and breakfast pastries on scales both large and small. Finally, students will work toward earning industry recognized certifications such as ServSafe which promotes employability. The curriculum balances classroom theory with hands-on skill. It also includes activities such as field trips to post-secondary institutions and commercial kitchens that will help prepare your student for their post-secondary education and/or career.

A requirement for Baking and Pastry Arts students is to be in a complete, clean uniform on a daily basis. The class uniform set includes two white long-sleeved embroidered chef coats, white t-shirt, black chef pants, two bib aprons, black cloth skullcap and black, slip resistant work shoes with closed toes. The uniform cost including shoes is approximately \$135.00-\$165.00 depending on shoe brand. To simplify the ordering process and maintain a professional appearance amongst students, we will be using a uniform company that will come in during the first few weeks of school to fit the students and take orders. Once ordered, the uniforms will be delivered to Steel Center for distribution and payment may be made directly to Steel Center by check or money order. Please refer to the order form for uniform appearance and costs. Please note that while the uniform itself must be purchased through Cintas, alternative shoes can be bought as long as they meet the above requirements.

I look forward to working with your child during the course of this 2020/2021 school year to build their personal and technical skills in the field of pastry arts. If you have any questions regarding the program, please do not hesitate to contact me at the number or email listed above.

Yours in baking,

Stacey Caudill, C.E.P.C.  
Baking and Pastry Chef Instructor
